

## Profile Marc Wethmar MscBA

In brief: my roots, what I do and what inspires me

Since my studies in the Netherlands 30 years ago I have been engaged with the topics of Leadership and Collaboration. I have 13 years of Leadership experience under my belt, in the Netherlands, Germany and Switzerland. Since 2001 I have worked as a consultant in corporate and leadership development and have been self-employed since 2003.

Today the following two themes are vital for me:  
self-managed forms of collaboration, on the basis of a genuine, appreciative and purpose driven mindset;  
Mindfulness and Presencing as core competencies to deal with disruptive and complex change.

Since 2000 I have lived happily in Zurich as a keen sailor, a Dutch and Swiss citizen, a proud father of 4 great sons and as the spouse of a charming Swiss-French lady.
